The most recent update for Quick Color Match now also provides support for the popular photo paper types from the manufacturers **Hahnemühle, SIHL and Tecco**. The **Quick Color Match (QCM)** tool was developed as part of a cooperation between **EIZO, Adobe, Canon and Epson** and makes the complex colour management workflow much easier for home inkjet printers. You can use Quick Color Match by dragging and dropping to make the necessary adjustments to monitor, software and print settings. This allows you to quickly and easily match the monitor display and printout with each other.

As it covers paper types from **Canon, Epson, ILFORD, Hahnemühle** and **Tecco** QCM now supports nearly every relevant type of photo paper on the European fine art printing market.

Supported paper types:

Hahnemühle

- FineArt Baryta
- Photo Rag Baryta
- Photo Rag (188, 308, 500, Duo)
- Photo Rag Bright White
- Photo Rag Ultra Smooth
- German Etching
- Hahnemühle Photo Luster
- Hahnemühle Photo Matt Fibre

SIHL

- Metallic Pearl High Gloss Photo Paper 290
- High Gloss Photo Paper 330
- Lustre Photo Paper 300
- Lustre Duo Photo Paper 330
- Satin Baryta Paper 295
- Smooth Matt Cotton Paper 320
- Textured Matt Cotton Paper 320

PRESS RELEASE

Tecco

- PHOTO PM230 Matt
- PHOTO PL285 Luster
- PHOTO PUW285 Ultra White
- PHOTO PFR220 DUO Fine Art Rag
- PHOTO GB330 Galleryboard
- PHOTO BT270 Baryt
- PHOTO BMT275 Baryt Matt

Quick and easy colour management workflow thanks to QCM

All you need to do is select the printer and type of paper on Quick Color Match, and the software makes the necessary adjustments to the colour management workflow settings, allowing you to quickly and easily coordinate the monitor display and printout results with each other.

Availability

Quick Color Match is already available as a free download. For more information on hardware and software compatibility please visit our website:

EIZO: Simply uncompromising quality

'EIZO' is Japanese for 'image' and the name of one of the world's leading manufacturers of high-end monitor solutions. EIZO aims to produce the best possible monitors for each area of application. That is why EIZO monitors can be found wherever exceptional image quality is desired or absolutely necessary. This includes: back offices, hospitals, flight safety centres, design and photo studios, ship bridges, architecture firms, stock exchanges and gaming tournaments.

In short: When you talk about EIZO, you are talking about uncompromising quality. And about products that achieve the highest levels of reliability, image quality and ergonomics.
